

QUALITY, SAFETY, HEALTH AND ENVIRONMENTAL POLICY

Asia Propel Sdn Bhd is committed to delivering high-quality, safe and sustainable solutions across all aspects of its operations. Through our Integrated Management System, we ensure excellence in Quality, Safety & Health, and Environmental performance in line with our corporate vision, mission, and core values.

1. QUALITY

We are dedicated to providing high-quality products and services that consistently meet customer expectations and regulatory requirements. We continuously seek to enhance customer satisfaction through efficient processes and ongoing improvement.

2. SAFETY AND HEALTH

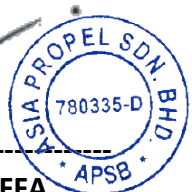

We maintain a safe and healthy working environment for all employees, contractors, and partners. We actively manage risks, implement preventive measures, and promote a strong safety culture through training, engagement, and shared responsibility.

3. ENVIRONMENTAL RESPONSIBILITY

We are committed to protecting the environment by preventing pollution, complying with relevant regulations, and applying resource-efficient practices. Our operations support long-term sustainability aligned with global environmental goals.

This policy applies across all company levels and operational sites — including offices, project sites, and facilities — and extends to all APSB personnel, consortium and JV company personnel, subcontractors, and third-party service providers.

Together, we are committed to operational excellence, safety, sustainability, and stakeholder value.

MOHD FAUZI MUSTAFFA
